**The Viking Bowl** is the perfect choice for dry chemical dispensing in commercial kitchens. The bowl will accommodate both encapsulated powder or solid chemical products. There are two versions for dish machines detergent and rinse. A third version can accommodate dispensing pot and pan detergent and other chemicals into two and three compartment sinks.

## Features & Benefits

- Accepts 6 inch diameter chemical capsules
- Durable polypropylene molded body
- Molded in flood line indicates proper mounting of the vacuum breaker, meets ASSE 1001 standard
- Plastic or brass vacuum breaker
- Spray and strainer mesh assembly, easy to remove for cleaning
- Large label space available for custom branding
- Mounting hardware included
